RESEARCH INTERESTS & SUMMARY

My research interests broadly cover deep learning, focusing on designing **robust** and **efficiency** techniques for designing practical deep learning systems. I am specifically interested in applications surrounding representation learning and optimization of training paradigms for these models.

EDUCATION

University of California, Los Angeles (UCLA) — Los Angeles, USA
PhD. in Computer Science — *09/2024 – Present*
. Mentor: Cho-Jui Hsieh

BITS Pilani, Hyderabad Campus — Hyderabad, India
B.E. in Computer Science, MSc. in Economics — *08/2016 – 08/2021*

SELECTED RESEARCH/WORK EXPERIENCE

Google DeepMind — Bangalore, India
Pre-Doctoral Researcher at Google — *07/2022 – 08/2024*
. Mentors: Prateek Jain and Inderjit S. Dhillon
. Developed an end-to-end efficient retrieval architecture (EHI) [2], that improved upon prior retrieval benchmarks by up to **1.45%** at a fixed compute budget. This effort is slated for integration into various Google products.
. Led a cross-functional team in developing and deploying RGD [1] solutions in product-driven research, improving performance of ViT by up to **1.01%** on ImageNet-1K.
. Received recognition for efforts in improving related product retrieval for users across the world. Took initiative in proposing a novel end-to-end retrieval architecture, improving efficiency and robustness in ongoing projects, with contributions recognized in .

Google Research — Bangalore, India
Research Associate at Google — *04/2022 – 07/ 2022*
. Mentor: Dheeraj Nagaraj
. Devised Introspective Experience Replay (IER), a replay buffer sampler inspired by other reverse-experience-replay (RER), with potential to enhance convergence of RL algorithms such as DQN, TD3, and more [5] by up to **7x** speedup.

Mila - Quebec Artificial Intelligence Institute — Montreal, Canada
Consultant — *07/2021 – 03/2022*
. Mentor: Yoshua Bengio
. Initiated and led a project exploring the impact of diversity in meta-learning, collaborating closely with his group. Designed and executed experiments, leading to an oral presentation at AAAI [3] that challenged the conventional wisdom of diversity being strictly useful to meta-learning.

Amazon ML — Bangalore, India
Applied Scientist Intern — *01/2021 – 06/2021*
. Mentor: Gokul Swamy
. Published at Amazon's internal conference (AMLC 2021) and investigated causal attributions and its significance within the Amazon sales model at capacity of first-author.

Kno.e.sis, Wright State University Dayton, USA
Research Intern *05/2019 – 08/2019*

. Mentors: Amit P. Sheth and Krishnaprasad Thirunarayan
. Collaborated with a large team from multiple time-zones and worked on a research project at the capacity of a first-author. Developed a sybil detection system in darknet markets using an unsupervised multi-view framework [4].

SELECTED AWARDS AND HIGHLIGHTS

Quad Fellowship, Participated in a summit at the White House to discuss the role of emergent technologies and their policies 2024

Graduate Dean's Scholars Award, UCLA scholarship. 2024

Awardee, NTSE Scholar. 2014-2020
